

What is in Your Hands to STOP COVID-19?

What is in your hands? – A Staff? (Exodus 4:2)

What do you have in your house? – Just a little oil? (2 Kings 4:2)

What do you have in your community? – 5 loaves of bread and 2 fish? (John 6:5-12)

Dear Community Leaders/Partners:

As the threat of COVID-19 spreads in our communities, we appreciate these questions that God asked Moses, our Lord Jesus Christ asked the Phillip concerning food for the crowds, and Prophet Elisha asked the widow of Zarephath.

I know you know these Bible stories very well. They end with the display of God’s effortless ability to create abundance from nothing; creating answers in times of dire need. In these stories, God declares Himself as the God, who alone can put an end any crisis, and give life using our cooperation resources and efforts.

In these COVID-19 times, we can expect God to do the same, with the seemingly very small but very practical resources that we have on us NOW.

How are you being part of your community’s solution in this time of COVID-19? If haven’t yet started, what can you do now with what you have to stop the spread of COVID-19 in your community, home, and your own life?

What is in Your Hands NOW to Stop COVID-19 and its Effects in Your Local Community?

➤➤➤ Is it your cell phone? Your laptop? Water? Soap? A song? Food? Money? A prayer?

Whatever it is, we at RIBHO have in our hands a few resources to add to what is in your hands. These include:

- ◆ Soap
- ◆ Bleach
- ◆ Buckets
- ◆ Fabric for making face masks
- ◆ COVID-19 health information
- ◆ COVID-19 certificate course
- ◆ On-phone counseling training
- ◆ Call line support

Are you interested in sharing accurate and up-to-date COVID-19 prevention information with your family and community?

Are you interested in using your phone to support someone who is feeling afraid, isolated, sad and lonely during this time of social isolation?

Are you interested in setting up a hand washing station outside of your house, your church, your shop?

Are you interested in sharing faith materials with others missing church/ mosque gatherings and are looking to continue building their faith and hope in God?

Are you are interested in making face masks for the immune compromised?
